# Accelerate your business with Data & AI

Your Data & Analytics platform with Fabric

Getting ready for AI...

## Why is Microsoft Fabric a game-changer in Data?

Setting up a Data Platform that delivers real business value has historically been a time-consuming, costly, and effort-intensive endeavor. Although every company understands the value of data, many companies are still struggling to obtain value from it.

Microsoft Fabric is the answer for those clients that are looking for an easy-to-use, business friendly, AI-enhanced, SaaS Data Platform that can be deployed in weeks, not years.

# Fabric Value Accelerator

Do more with your data with Fabric

## Start harnessing more value from your data with Avanade's Microsoft Fabric Value Accelerator offering

Avanade's Fabric Value Accelerator can jumpstart your data initiatives with Microsoft Fabric. In just 4 weeks, we will help you understand how to leverage Fabric to quickly access, process and analyze your data to realize business value out of it.

## How our program helps accelerate your Data-driven journey

### Learn

#### See what's possible with Microsoft Fabric

We will showcase you our Fabric Accelerators so that you can select the one that fits your needs better.

### Explore

#### Leverage Avanade's Fabric accelerator

We will use Fabric to prove that this is the Data Solution that achieves the outcomes you are looking for with your selected approach

### Activate

#### Put Microsoft Fabric to work for you

We will provide a roadmap for production considerations and best practices for enabling your next steps.

### Scale

#### Empower people across your business

We will help you scale Microsoft Fabric success in your organization to continue to unlock value and growth from your data.

## Choose the approach that fits your business needs:

- Accelerate your Business Intelligence response time with Microsoft Fabric. Your organization uses Power BI but limited resources in Business Intelligence teams paired with manual Data processes and basic Data tools result in long waiting time for business to get new reports or updated dashboards
- Connect Dynamics instances and/or other data sources to generate business insights with Microsoft Fabric to achieve a **consolidated real-time business view** across different regions or business units
- Set up your out-of-the-box end-to-end Modern Data Platform. You have different solutions to run your business you lack a data platform or the resources to operate a traditional one.
